Marshall developed the L.E.A.R.N. Evangelism: Giving Away The Greatest Gift, available in PDF Download. It is a brief overview of the small, 28-page pocket pamphlet (or e-book) that accompanies the L.E.A.R.N. Evangelism HANDBOOK (Spanish edition available early 2020). It serves as a tool to encourage you in starting conversations and sharing your faith. A short PDF version will give you a cost-effective resource for teaching others about the L.E.A.R.N. Evangelism acrostic.

“Love Your Neighbor” is a weekend of evangelism and outreach. The Empowered to Share book and workbook were written by Joe Oden and serve as curriculum for Love Your Neighbor weekends. Empowered to Share is focused on training believers to effectively start conversations, communicate their testimony, and share their faith. This training carries the prayer/care/share approach to relational evangelism. Churches who complete this process acquire the tools to productively pray, care, and share Christ with their community far beyond a weekend event. It serves as a catalyst for effective outreach for years to come.

Positioning Churches for Unstoppable Growth, Johnny uses the “The Human Right Community Outreach,” which is a three-hour all-church effort (preferably on Saturday) to connect the church to the community with high visibility servant evangelism.

“Loving your city” is used to teach and train people in local churches on how to share your faith in everyday life.

During the “loving your city” conference we provide opportunity for those we just equipped to go out into the community to “put into practice” what they learned.
